# UEM – A NEW APPROACH TO D.E.:
FACE-TO-FACE & COLLABORATIVE LEARNING

Orlando Quilambo (Reitor da UEM)

e Gulamo Taju (Director do CEND)

UEM coverage through DE

Learning at distance: the daily practice (not occasional)

How we do it? – We live in a digital era

Samsung B3310
Fala até te doerem os dedos ;-)

teclar nunca foi tão fácil !

Using web-based tools:

E-learning Plataform
-To post learning materials
- To create virtual communities (classes)/
-group interaction
- To ensure continous assessment/evaluation
-To monitor the process
http://elearning.uem.mz

Skype
-virtual communities
Interaction: audio, video, text
(bi-multilateral)
-To send study material
www.skype.com

Online Collaborative Learning

■ (Samora Machel: *"when a G3 is in the hands of the enemy it is a tool of oppression. When G3 is in our hands is a tool of liberation"*)

■ Online collaborative learning
  ▪ Learning material
  ▪ Individual study
  ▪ Group work
  ▪ Discussion Forum
  ▪ Chat sessions
  ▪ Tutor as a facilitator
  ▪ Programme schedule/time-table
 ▪ Learner assessment/evaluation

Presentness and collaborative work

# Distances in Cyberspace: new oppotunities, new challenges

- Cyberspace: the worldwide network made possible by the internet connections
  - Equidistance or the end of distance?
  - Learning communities
  - Teacher/tutor presence in the daily life of the learner
  - Planned collective activities à distância
  - Electronic resources
  - Students as inovators agents in their living communities
- Challenges:
  - Acess and quality of internet
  - Digital literacy and cyberculture
  - Limitation of nr of students per class

?????????????

- In Maputo you have seen nice cars. Do you think that we have everywhere good/nice roads? (why we don't wait for good roads to buy nice cars?)
- Do we use the amount/quality of the existing ICT/internet facilities to improve DE? To reach more people?
